## ST. FRANCOIS COUNTY SAFELY DEMOCRATIC

St. Louis, Oct. 10th.—St. Francois county will swing back to the Democratic column on November 7th with a majority of approximately 600 votes, according to a statement made here today by Dr. C. A. Tetley of Farmington, Chairman of the St. Francois Democratic County Committee.

Dr. Tetley, who was very optimistic concerning the outlook for the fall election, spent today here in conference with executives of the Democratic State Committee.

"Those of us who have studied the situation in our section of the state," continued Dr. Tetley, "have every reason to feel optimistic concerning the outcome next month. St. Francois county is going to roll up a healthy majority for the entire Democratic ticket."

"There are hundreds of farmers with their tax receipts before them who are going to vote the Democratic ticket straight. They are tired of broken promises, wasteful expenditures, soaring taxes and high tariff."

### TO ALL VOTERS

Beware of the Lead Belt News, which, from its "smoke screen," is throwing off its usual poison political gasses. It is harmless if you will but "pay it no heed."

### PICK SEED CORN NOW—DEMONSTRATIONS TO BE HELD NEXT WEEK

Farmers, your attention, please! Of course you are busy, but now is the time to increase your 1913 corn crop. By picking your seed from the standing corn now, you can increase your yield of corn materially. There are a number of points that if carefully selected for, will make your corn crop more profitable. Higher yields can be secured the kind of stalk you want, ears of uniform height from the ground, ears that turn down, thus preventing damage by worms, and uniform ears can all be secured by watching for these points in selecting your seed in the field. Do you wait until spring to pick your seed? Is that time you have nothing to pick from except ears. You cannot tell then what kind of stalks these ears grew on. The larger ear you pick then may have grown on stalks on an exceedingly fertile spot. It may have had little competition. By picking seed in the spring you are making the same mistake that the livestock grower makes when he picks a nice-looking calf to head his herd,

regardless of its ancestors.

In order to give you an opportunity of seedling an approved and tried method of picking seed corn, eight demonstrations are to be held next week. These are held for your benefit. If you fail to avail yourself of this opportunity, it is your loss. As the time for each demonstration is limited, they must begin and close on time. C. E. Carter, who is well known in several sections of the county, will assist the County Agent in holding these demonstrations. Teachers of agriculture classes are cordially invited to bring their classes to these demonstrations. The demonstrations will be held on the farms of:

Wm. Keel, old St. Louis road, 8:30 a. m., Wednesday, Oct. 18.  
R. W. Pigg, Sink Hole District, 10 a. m., Wednesday, Oct. 18.  
O. A. Murphy, east of Bonne Terre, 1 p. m., Wednesday, Oct. 18.  
Alfred Hardy, Cedar Mills Community, 3 p. m., Wednesday, Oct. 18.  
James Feezor, St. Mary's road, 8 a. m., Thursday, Oct. 19.  
F. H. Best, Unity Community, 10 a. m., Wednesday, Oct. 19.  
Roy Johnson, Flat River road, 1 p. m., Thursday, Oct. 19.  
R. S. Tetley, Cartee District, 3 p. m., Thursday, Oct. 19.

On Wednesday night, Oct. 18, at 7:30, a community meeting will be held at Cedar Falls school house. Mr. Carter will also be at this meeting to talk on field crop management. A motion picture show may be held in connection with this meeting.

### VALLE MINES

Mr. and Mrs. Oscar Colline, of St. Louis, visited her parents, Mr. and Mrs. W. E. Heston Saturday and Sunday.

# Some will come late

We cannot hope to deliver the new enclosed models at the new prices, as fast as they can be sold.

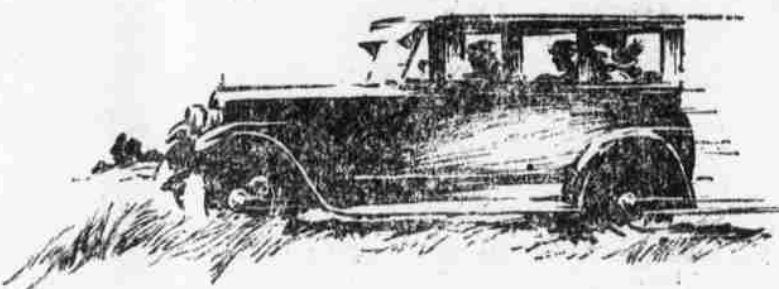

There will be some irritating delays—no doubt.

That is the little payment we must make for success and satisfaction.
